# Food Safety Net Services, Ltd.

We offers an integrated network of services and industry expertise to improve the effectiveness of food safety and quality programs in a “one-stop shopping” concept.

**Food Safety Net Services, Ltd., is building the foundation for food safety.**

Food Safety Net Services, Ltd., ties together the vision of food safety from “farm to table” and combines laboratory services with consulting and auditing services, educational and crisis management programs, and regulatory support. Our goal is to help you build and implement the most effective food safety and quality programs possible.

**Innovative solutions to employee education and training is our goal.**

**Our laboratory experts work with you to develop an effective testing program based on your needs.**

**Food Safety Net Services, Ltd., provides its customers:**

**Laboratory Services:**

- Full Service Microbiology and Chemistry Testing
- Customer Service
- Accuracy and Speed

**Education and Consulting:**

- Expert consultation services, including food safety audits
- Customized educational and training programs
