On October 20, 1999, FSIS published the final rule, "Sanitation Requirements for Official Meat and Poultry Establishments." This rule revised the regulatory requirements concerning sanitation in meat and poultry establishments and will be effective January 25, 2000. The purpose of this meeting is to explain the regulation and allow discussion of technical issues related to the new regulation. Videotapes of the FSIS technical conference will be available from the International HACCP Alliance on a cost-recovery basis. To obtain an order form for the videotapes, contact Robin See in the International HACCP Alliance office at 409-862-3643.
